About Us

EMAWE TECHNOLOGY CORPORATION LIMITED has been specialized in designing and manufacturing balloon accessories since 2007. EMAWE TECHNOLOGY CORPORATION LIMITED is the subsidiary corporation of TOTA Industries.

TOTA was engaged in manufacturing party products from 2004. And the subsidiary corporation named EMAWE TECHNOLOGY CORPORATION LIMITED was found with the balloon accessories were in great demand in 2007. From balloon sticks & cups, balloon weights, to balloon hand pumps, mini pumps, balloon release nets, balloon drop nets, LED balloons, LED dots, then Electric balloon inflator and now patented BIO recyclable balloon sticks and cups... .. , till the end of 2020, 26 injection machines, 10 plastic extruding machines and 8 blow molding machines are producing balloon accessories and plastic toys in 24hours a day.

Because of the advantage in geography, labor force, We can always supply to our customers with competitive price. But we are fully aware of the reliable quality is same important as competitive price. So QC was be done according to ISO:9001- DQA, IQC, IPQC, FQC. The safty is the most important thing for us, CE certification is available.

We are cooperating with over 40 customers in Australia, USA, Canada, Europe, South America etc. They are distributing our products to all over the world, and Most of our partners are happy in cooperating with us.

"Better Price, Better Quality, Better Leadtime" is our slogan. A long-lasting business relationship with your firm and team is my goal. Remember you have a 100% satisfaction guarantee from TOTA. We welcome you to pay a visit to our factory.

Due to the long history and good reputation of balloon accessories production, many companies profess that they are Affiliated company of EMAWE TECHNOLOGY CORPORATION LIMITED. Please note no company has authorization to act on our behalf.

2023

Printing Bubble --upgraded

what's upgrade this time?

45cm plane size uninflated

You may have received complaints from customers about how to inflate such a small balloon to its intended size. This time we have directly expanded the flat size of our bobble, so that you will not be troubled 45cm

Printed inside the balloon

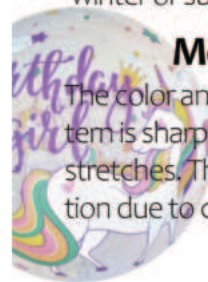

Balloons smell? In the past, we launched the printing bubble balloon, printing is covered on the surface of the balloon, although it is environmentally friendly ink, but it is difficult to remove the smell of the ink, especially the wholesale packaging, but we are currently printing the pattern inside the ball, completely closed balloon packaging ink smell will not overflow.

Maximum inflated dia 70cm-80cm

We have been doing our best to solve the problem of size difference caused by temperature. This time, our balloons are inflated up to a size of 80cm, but we only suggestion you inflated to 45cm-50cm no matter winter or summer. Temperature will no longer be a worrying factor.

More HD Printing, More Clear, More vivid

The color and detail of the pattern design are presented perfectly, the pattern is sharper than before, and the color does not fade as the sphere stretches. The sphere is more transparent and does not reduce light refraction due to color cover.
